Product Change Notification

Change Notification #: **260000-02**
Change Title: **Cornelis® Omni-Path Express® 100 Series Products**

PCN 260000-02, Product Discontinuance
Date of Publication: **May 1, 2026**

Key Characteristics of the Change:

Product Discontinuance

Forecasted Key Milestones:

Last Time Buy Date:	September 30,2026
Orders are Non-Cancelable and Non-Returnable After:	December 31, 2026
Last Shipment Date:	December 31, 2026
Last Product Warranty Extension Date:	December 31, 2026
End Of Engineering Support	December 31, 2027
End of Service Date:	December 31, 2031

Overview of Changes

This letter is to formally notify you of our plan to discontinue the sale and support for Omni-Path Express 100 (OPA100). This decision is part of our commitment to focus on our next generation of products, including the recently launched CN5000 and the upcoming CN6000 and CN7000, which offer the industry's highest-performing, end-to-end networking solution purpose-built to maximize AI and HPC performance.

Key Dates:

- Last Time Buy (LTB) Date: September 30, 2026
- Last Shipment Date: December 31, 2026
- Last Warranty Extension: December 31, 2026
- End of Engineering Support: December 31, 2027
- End of Support: December 31, 2031 (5 years from the last ship date)

Engineering Support and OS Compatibility:

Effective one year following the Last Ship Date, OPA100 will transition to End of Engineering Support (EoES). During this phase, the engineering team will no longer support feature enhancements or support new Operating System (OS) major releases or kernels. Engineering activity will be limited exclusively to critical security vulnerabilities and issues that prevent core functionality of the product from working.

Following the EoES milestone, the product will enter a final four-year Extended Support phase until the End of Support (EoS) date (5 years post-Last Ship). During this time, support will be limited to technical assistance on existing workarounds as well as documented known issues and hardware replacements that will be fulfilled subject to the availability of 'last-time-buy' spares.

After the 5-year EoS date, all technical assistance, firmware downloads, and hardware services will be discontinued.

Product Transition Roadmap

We are excited to partner with you on your transition to the CN5000 SuperNIC, Switch, and Director Class Switch scale out networking products, now available from all major OEMs. Our upcoming CN6000 and CN7000 platforms will extend Cornelis' leadership in high-performance interconnects to Ethernet RoCEv2, Ultra Ethernet, and UALink, enabling both scale-out and scale-up fabrics engineered to move beyond traditional bandwidth-limited networks.

We are confident that these products will unlock new levels of data center performance and utilization for your most demanding workloads, and we look forward to partnering with you on them moving forward.
